NOBAMANOMICS

BY: JOHN C. SALOMONE

Republican candidates for office at all levels should learn how to pronounce NOBAMANOMICS. It is difficult to pronounce NO BAMA NOMICS and even more difficult to understand, since it means nothing, represents nothing and will accomplish nothing, except more job destruction and slower economic growth. Yet no economic policy IS the economic policy of Obama – Hence NOBAMANOMICS.

NOBAMANOMICS whether pronounced correctly by Republican candidates or not is exactly what every Republican should be running against because it is at the heart of everything that is wrong with Obama and his domestic “economic” policies.

What is NOBAMANOMICS?

The textbook definition of NOBAMANOMICS is “the absence of any cohesive economic policy; replaced by a series of slogans, sound bites, misstatements, illogical incongruities and a never ending mindless demand for more government spending, increased business regulation and higher taxes, all based on complete ignorance of basic economic principles.”

NOBAMANOMICS calls for increased income taxes. Though the stated reasons change with each empty speech, the only principle Obama clearly articulates is that he believes federal income taxes should be higher. This alone is reason enough for everyone in America (except for Warren Buffet) to vote against Obama.

NOBAMANOMICS restricts development of domestic oil and gas supplies. Obama unleashes

Lt. Governor JENNIFER CARROLL

By: Barbara Howard

While the Democratic PR Hit Machine continuously attempts to cast Republican Governor Rick Scott as a racist, his Lt. Governor, Jennifer Carroll, reveals the true nature of the Scott administration and by their actions exposes the Democratic twisted lies every day.

Not only is she an elegant black lady, Lt. Governor Carroll is and always has been totally involved in her community and is a lifelong

BLACK AND LIBERAL INSULTS MUST STOP

BY: BARBARA HOWARD

I am tired of Liberals trying to impose their positions on the entire black community. And I am really tired of pompous self-centered holier-than-thou foul mouth hypocrites calling Black Republicans demeaning and ugly names and getting away with it. Maxine Waters told the Tea Party they could “go to hell” and called them “the enemy” and no member of the talking head class or the left

leaning media (the “Information Ministry”) said a word.

For eight years Roland Martin and a host of others in the Information Ministry referred to President Bush as a violator of the constitution, a murderer and a range of other disgusting pejoratives, because they knew they could get away with it

without criticism or consequences. Danny Glover and Harry Belafonte applauded Hugo Chavez for calling Bush “El Diablo”.

By contrast, Hank Williams, Jr. called Obama and

member of the NAACP. Recently she outdid herself and gave the students of the Florida Historically Black Colleges something to be proud of and cheer about.

The Presidents of Bethune Cookman University, Edward Waters College, Florida Agricultural & Mechanical University (FAMU) and Florida Memorial University (FMU) are all singing her praises. She fought against and prevailed over potential vetoes so now these grand institutions will receive over

\$8.7 million.

Lt. Governor Carroll also ensured that Governor Scott included in his budget over \$10 million for Grants and Aid to the: Minority Teacher Scholarship Program, Mary McLeod Bethune Scholarship, Rosewood Family scholarships, Jose Marti scholarship, McKnight Doctoral Fellowship, Black Male Explorers, African American Task Force, Minority Community Crime Prevention Program, Minority Scholarship for CPA's, and

the Black Business Investment Board/Corporation.

FAMU's Crestview Pharmacy College got \$1.5 million, which led President Dr. James H. Ammons to state that "he was very appreciative for Lt. Governor Jennifer Carroll for working" with him to keep the appropriations from being vetoed. "I can't thank her enough for support FAMU's progressive initiative...I contacted (her), she immediately responded and the rest is history".

Dr. Henry Lewis III, President of FMU and President Nathaniel Glover, Edward Waters College, were personally reassured by Lt. Governor Carroll that she would work to secure their funding to maintain access for many underprivileged college students. President Glover stated that the Access Retention and Graduation (ARG) grant "was critical helping us keep kids in school and have the appropriate mechanism in place to facilitate access. ARG funding is a major factor in our success in addressing the needs of our students, where 99% of the population receives financial aid. For first generation students, ARG funding allows Edward Waters to address their needs in a holistic manner, not just in the area of academic, retentions and graduation, it will also allow students to be successful and fully participate in Florida's and the world's economy as taxpaying revenue citizens. Lt. Governor Jennifer Carroll's help to ensure these funds were secured for EWC was instrumental. I cannot thank her enough for her involvement in the process."

Governor Rick Scott and Lt. Governor Carroll demonstrated their true colors and the true colors of the lying nature of the name callers that consume so much of the efforts of the Democratic PR Machine.

THANK YOU Governor Scott and Lt. Governor Carroll for your support of the essential vehicles that will help catapult this and future generations of black families onto a path towards financial growth, stability, self help and the great American Dream.

BLACK SILENCE HAS TO STOP

(Continued from page 1)

Biden "the enemy" and got canned from ESPN. Republican Congressman Fred Grandy was fired from Washington radio station WMAL for criticizing radical Muslims. And this happens ALL THE TIME.

Worse still - foul mouth members of the Information Ministry say hateful things about Black Republicans, especially candidates for political office and the rest of the Information Ministry remains woefully silent. This is HYPOCRISY at its worst.

Just recently CNN's Roland Martin and black comedians D.L. Hugley and Michael Colyar tweeted very racist and ugly messages about Herman Cain. Tavis Smiley and Cornell West said Herman Cain needed to "get off the symbolic crack pipe".

This has to STOP!

I want people like Roland Martin, Tavis Smiley, Cornell West and D.L. Hugley to suffer the same consequences that Jesse Jackson and Al Sharpton try to impose on

any Republican who says something they don't like.

Every time a conservative or Republican says something Jackson and Sharpton do not like they do everything they can to create havoc and "punish the offender".

Yet Jackson, Sharpton, Roland Martin and every other member of the Information Ministry spews bigoted offensive and defamatory accusations with absolute impunity. They never pay for their insults and they never suffer any consequences.

This has to STOP!

Herman Cain is a decent, wonderful man and after meeting him I knew I would support his campaign just like I supported Congressman Allen West after getting to know him.

Both espouse the same policies and positions on issues that are dear to me and my family. In fact, they espouse the same core principles that

his regulators on gulf drillers to slow down current production and the search for new oil and gas reserves. Obama stalls on the Alberta to the U.S. oil pipeline, dreams up roadblocks to gas and oil fracking all while bemoaning how higher gas prices hurt the “economic recovery”.

NOBAMANOMICS does not follow the law and has not produced a federal budget in over 2 years. Obama supports endlessly funding the federal government through continuing resolutions. Obama al-

lowed the federal deficit to increase by over \$1.5 trillion in 2011 and wants to increase the federal deficit by \$1.0 trillion every year forever because he does not understand the insidiously evil effects of “baseline” budgeting. Obama cannot find a single program in the out-of-control federal government to cut, while he meekly speechifies that the U.S. has a debt crisis.

NOBAMANOMICS wants to mindlessly regulate car design and engineering to increase gas mileage to 56.2 miles per

gallon, while demonstrating complete ignorance of the implications of such an idiotic proposal, let alone the true economic effects if this mileage standard ever became law. This is just another example of children blabbering in an adult world.

NOBAMANOMICS creates “photo ops” and endless empty speeches that bemoan unnecessary federal regulation, while issuing thousands of pages of unnecessary federal regulations each month, including bovine excrement

reporting requirements.

NOBAMANOMICS does almost everything imaginable to discourage job creation in the private sector (continuously trying to raise taxes, over-regulation, Dodd Frank, Obamacare, federally regulating the minimum wage in every small town in America and all the rest) then yelps about the lack of job creation in the private sector. He cannot even define the “private sector”.

NOBAMANOMICS mind-

lessly supports Davis Bacon, while wondering why federal construction projects take so long to get started, are always over budget and do not create any “jobs”.

NOBAMANOMICS forbids Boeing from opening its \$2.0 billion plant in South Carolina then complains that earthquakes in Japan and rain in Milwaukee are slowing job creation.

NOBAMANOMICS screams that banks are prohibiting job creation by not lending to small businesses when the only reasons banks cannot lend to more businesses is a never ending cascade of attacks on the commercial lending industry conducted by Obama – voiding contracts (GM and Chrysler debt and dealership agreements), almost every provision in Dodd Frank (federal regulation of fees that should be set in the open market), financial penalties and Justice department threats for mortgage processing issues that should be settled between the parties, and the list of other market interfering actions is almost endless, witness Bank of America’s recent announcement of 30,000 layoffs in the retail lending sector.

NOBAMANOMICS is Solyndra.

NOBAMANOMICS interferes with the operation of businesses in the private sector in so many ways that they cannot be completely catalogued here, but every business person in American sees and feels the effects every day. The Information Ministry casually refers to “uncertainty” as the reason for slow growth overall and slow job growth in particular. Then in an overly simplistic manner, each member of the Information Ministry blurts out one or another issue of the day that they believe creates the uncertainty and if only that went away things would be better.

It is not this or that creating uncertainty, it is NOBAMANOMICS in all its facets, philosophy, actions, pronouncements, threats, press releases, empty speeches and in everything it represents and does that is stifling the AMERICAN SPIRIT.

I defy anyone to define President Obama’s economic policy, and in the absence of any coherent definition, the only definition that is credible is NOBAMANOMICS.

How Did We Get Here.....

By: George Quintero

Turned on the TV news and saw the headline “S&P Downgrades US “AAA” rating to “AA+””. The previous week the Whitehouse told us that we had to enact some jumbled legislation or we would face a default. In the short term all the Congress did was give President Spend Money another 2 trillion dollars to fritter away. Likely it will find its way back to his union buddies and pump up his reelected slush fund.

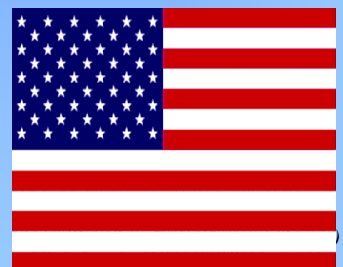

Is this why we elected a House Republican majority last year? We did not elect them to increase the credit card limit for President Spend Money nor to continue the largest spending binge in the history of the world. The House Republicans should not only start to say NO more loudly but they should have the guts to say “Hell No!”

A single reality is starting to set in for a growing number of Americans and hopefully a

large majority eventually and that is “President Spend Money” must not win reelection, if we are going to save our country. Even if Republicans did win the White House and the senate, the real work will just be beginning.

Be It Resolved that..... We need a filibuster proof senate; we need a new president who is ready to downsize the federal government; we need House and Senate members committed to balance the budget; and so much more to undo the damage done by President Spend Money and

most black folk I know hold dear. We may disagree how to accomplish the goals but the goals are the same. Yet liberals vilify them the same way they vilify anyone with whom they disagree.

Liberals demean those who work hard following the American dream and work hard for those who are less fortunate. Liberals think they are always right and we are always wrong. Liberals think they can disrespect President Bush and try to silence anyone who criticizes Obama's policies. Liberals think they are righteous and accuse everyone else of being racists or bigots. Liberal language is protected and conservative language gets twisted and distorted.

Why? Because decent Black people remain SILENT WHEN THIS HAPPENS.

This has to STOP!

I hereby declare WAR on biased Liberal insults!

I WANT ROLAND MARTIN, D.L. HUGLEY, TAVIS SMILEY AND CORNEL WEST TO BE FIRED!

If you think this is harsh, it is not, it is fair. Words have consequences. The Information Ministry insulted and defamed President Bush and the Republicans and nothing happened. This double standard has to stop!

HOW DID WE ...?

the Super Regulators in the Democratic party.

Candidates need to understand that the number of people who are deeply committed to conservative principles is growing by the thousands and tens of thousands every day. If our candidates do not understand this intensity they risk losing support of the millions that have recently become very active based on these conservative principles. Long term a third party is not impossible and this should be avoided at all cost. Since we all know that a third party will allow the democrats to destroy the very fabric of the country.

Be It Resolved that Our candidates and elected officials must continue to stand strongly and loudly for the (conservative)

American principles; they must protect and defend free market capitalism and fight anyone anytime that still believes in the destructive path that follows from Keynesian economics.

We were asleep at the wheel that last time the Republicans had the White House, the Senate and the House, though we cannot lose sight of the the national security threats we had and still have cannot be forgotten. If we all work together we will get and earn a second chance. So what can we do better?

Be It Resolved That The tasks are harder than ever and may take a generation to fix; the ideology of the left must be fought wherever it appears; the conservative principles of the Tea Party must be supported and

integrated into we try to do; we must re-examine the role of every federal agency and all their regulations so that we restore the freedoms taken away and the eliminate any unnecessary impediments to economic growth; we must look everywhere inside the federal government so that we can restore our country to its rightful place as the greatest country in the world to start the next Fortune 500 company.

If this requires that never again can we let a democrat like President Spend Money occupy the White House, then so be it.

Be It Resolved That
.....

"THE ONLY WAY FOR EVIL TO TRIUMPH IS FOR GOOD MEN (AND WOMEN) TO DO NOTHING!"

I'm TIRED of good people doing and saying NOTHING.

I'm TIRED of being denigrated for believing in AMERICAN CONSERVATISM, for belonging to the REPUBLICAN PARTY, of having my friends harassed for belonging to the TEA PARTY.

Black Republicans - be proud, speak up when your words and your beliefs are insulted.

The silence must STOP.

I'M SUPPORTING HERMAN CAIN FOR PRESIDENT OF THE UNITED STATES AND I WILL NOT REMAIN SILENT WHILE HE IS BEING INSULTED.
